

ARYA YUDHISTIRA

+6288291821750 | ryudhis.id@gmail.com | <https://www.linkedin.com/in/ryudhis> | <https://ryudhis.dev>

Kota Tangerang Selatan, Indonesia.

Fullstack Engineer with 2+ year of experience building and shipping production web applications across education and enterprise domain. Specializes in React and Next.js ecosystems, from database schema design (Prisma) to responsive UI (Tailwind CSS, shadcn/ui) and CI / CD deployment (Dokploy). Demonstrated ability to independently lead end-to-end development and iterate fast in agile environments. I thrives in solving technical challenges and delivering impactful digital products.

Experiences

Sapta Group - Jakarta Pusat

Oct 2025 - Apr 2026

Software Engineer

- Led the end-to-end development of web apps using Agile methodologies, including Sapta Investa (an external investor platform with daily return tracking), the Sapta Internal System (featuring funding, financial, and inventory modules), and Best7 Online Food Order, leading a small engineering team and collaborating directly with stakeholders to align technical deliverables with business goals.
- Architected and deployed scalable full-stack solutions utilizing Next.js, Prisma, Golang, and TypeScript, establishing automated deployment pipelines via Dokploy to streamline release cycles and post-production support.
- Engineered responsive interfaces using Tailwind CSS and shadcn/ui, significantly reducing manual operational steps and improving usability for non-technical staff.

Eventhings - Remote

Jan 2025 - May 2025

Frontend Engineer (Project-Based)

- Delivered a responsive, high-performance frontend for Eventhings, a B2B rental event platform, using Next.js and Tailwind CSS, successfully developing core features optimized for cross-platform desktop and mobile usage.
- Integrated Zustand for complex state management and enforced strict TypeScript validation, significantly reducing runtime errors and ensuring seamless data flow.
- Collaborated closely with external clients to iteratively refine UI/UX behavior, ensuring a high-quality product delivery that met precise business requirements.

Institut Teknologi Sumatera - Institut Teknologi Sumatera

Mar 2024 - Aug 2025

Fullstack Engineer (Project-Based)

- Developed and maintained an Outcome-Based Education (OBE) system serving the entire institute, communicating directly with academic stakeholders to translate complex curriculum needs into technical requirements.
- Built a robust full-stack monitoring platform utilizing Next.js and Prisma, drastically reducing manual curriculum evaluation time from approximately 1 month to just 1 day per evaluation cycle.
- Implemented strict TypeScript validation and RESTful backend services (Next.js API routes) to ensure zero data inconsistencies across complex academic assessment records and CRUD workflows.

Dicoding Indonesia - Tangerang Selatan

Aug 2024 - Dec 2024

Product Engineer (Internship)

- Engineered 'CodeGym', a gamified coding education platform, by conducting user research and collaborating seamlessly with the UI/UX design team in a fast-paced Agile environment.
- Developed comprehensive full-stack features utilizing Next.js, Prisma, and Next.js API routes, and established a robust CI/CD pipeline using GitHub Actions to Vercel for rapid, automated deployments.
- Designed and optimized relational database schemas to accommodate dynamic product iterations while maintaining strict data integrity and superior application performance.

Vocagame - Surabaya

Jul 2024 - Aug 2024

Frontend Engineer (Internship)

- Revamped the corporate website using Next.js and TypeScript, significantly improving UI/UX consistency, responsive behavior, and overall page load performance.
- Developed frontend features for 'VocaSawer' (a streamer donation platform) utilizing Zustand to guarantee state consistency.
- Prototyped and delivered critical UI enhancements within a tight 5-week Agile sprint in close collaboration with the product management team.

Educations

Institut Teknologi Sumatera - South Lampung

Aug 2021 - Aug 2025

Bachelor of Informatics Engineering / Computer Science, 3.90/4.00

- Final project: Developed an OBE (Outcome-Based Education) System for the Institution using Next.js.

Study Independent Dicoding	Feb 2024 - Jul 2024
<i>Certificate in React Expert & Back-end Beginner</i>	
- Completed certificates in React Expert and Backend Beginner. - Built Dicodit, a Reddit-like discussion forum application using React. - Built Otak-Atik, a learning and teaching platform using Next.js, Prisma and Typescript.	

Digital Talent Scholarship Kominfo	Aug 2019 - Oct 2019
<i>Certificate in Junior Mobile Programmer</i>	
- Gained certification as a Junior Mobile Programmer. - Created an Android application integrated with a database.	

Organisational Experiences

Informatics Engineering First Gathering 2022	Sep 2022
<i>Assignment Staff</i>	
- Designed and managed assignment criteria and evaluation for new participants. - Guided participants through completing tasks and assessed their performance.	

GDSC ITERA - Institut Teknologi Sumatera	Sep 2021 - Mar 2022
<i>Member</i>	
- Participated in learning and practicing emerging technologies with peers and mentors. - Collaborated on team projects, enhancing technical skills and teamwork.	

Projects, Skills and Achievements

- Projects:** PromptPage, Sapta Investa, Sapta Internal System, Best7 Online Food Order, CodeGym, OBE (Outcome-Based Education) System ITERA, Vocasawer, Vocagame Company Profile Revamp, Otak-Atik: Aplikasi Belajar Untuk Semua, Dicodit, PEMIRA KM ITERA 2023 Website, Posyandu Mawar I Way Huwi Management Website
- Hard Skills:** Next.js, React JS, Typescript, Prisma ORM, Zustand, Node.js, Express.js, NestJS, Javascript, Vue.js, Nuxt, PostgreSQL, Golang, Dokploy, MongoDB, HTML, Tailwind CSS, PHP, C++, Java, Python, REST API, Github, Database Design
- Soft Skills :** Problem Solving, Teamwork, Adaptive, Leadership, Agile/ Scrum, Cross- functional Collaboration, Stakeholder Communication
- Achievements:** TOEFL ITP 557/677 Score (2025), Third Best Graduate – August 2025 Judicium Ceremony (2025), Best Student SIB Dicoding Cycle 6 React & Back-End Developer (2024), React Expert (Dicoding) (2024), Advanced React (META) (2024), Digital Talent Scholarship: Junior Mobile Programmer (2019), TOEIC 820/990 Score (2019), MTA: HTML 5 Application Development Fundamentals 86/100 Score (2019)
