Jalan Kademangan No.12, Kademangan, Setu, Kota Tangerang Selatan, Banten.

I am a passionate Full-Stack Engineer with a strong foundation in web development, specializing in building modern web applications using React and Next.js. Proficient in both frontend (React, Next.js, Tailwind, Typescript) and backend (Node.js, Express, Prisma, Typescript) technologies, I thrive on solving technical challenges, creating user-friendly solutions, and delivering impactful digital products.

Experiences

Sapta Group - Jakarta Pusat

Oct 2025 - Present

Software Engineer

- Led end-to-end development of all company web app from requirements, system design, development, deployment, until post-production support.
- Built responsive admin interfaces with Next.js, Tailwind CSS, and shadcn/ui, improving usability for non-technical staff and reducing manual steps in key operational processes.
- Developed reliable backend features with Next.js API routes + Prisma, including schema design, relational data flows, and validation with TypeScript to reduce invalid submissions and data inconsistencies.

Eventhings - Remote

Jan 2025 - May 2025

Frontend Engineer (Freelance)

- Built a responsive frontend with Next.js + Tailwind CSS, delivering 5 core features across desktop and mobile.
- Implemented TypeScript validation and Zustand state management, reducing runtime issues and simplifying cross-page data flow.
- Collaborated with client/stakeholders to iterate on UI behavior and polish during delivery.

Dicoding Indonesia - Tangerang Selatan

Aug 2024 - Dec 2024

Product Engineer (Internship)

- Built CodeGym, a gamified coding learning platform by researching and developing features.
- Built frontend and feature workflows with Next.js, Tailwind CSS, shadcn/ui, TypeScript, Prisma, and Next.js API routes, improving usability and enabling faster product iteration.
- Designed and updated database structures to support new product changes while maintaining consistent data relationships.

Institut Teknologi Sumatera - Institut Teknologi Sumatera

Mar 2024 - Aug 2025

Full-Stack Engineer (Project-Based)

- Developed and maintained an Outcome-Based Education (OBE) System with Next.js + Prisma for curriculum evaluation and monitoring across all study programs, courses, and assessment records at ITERA.
- Built responsive academic/admin interfaces with Next.js, Tailwind CSS, and shadcn/ui, reducing manual recap and monitoring effort from ~1 month to ~1 day per evaluation cycle.
- Implemented TypeScript validation, Prisma schema design, and backend services (Next.js API routes + Prisma) to improve data consistency and support CRUD/monitoring workflows.

Vocagame - Surabaya

Jul 2024 - Aug 2024

Front-End Engineer (Internship)

- Contributed to the Vocagame company profile revamp using Next.js + TypeScript, improving UX consistency and responsive behavior.
- Developed frontend features for VocaSawer (streamer donation platform) using Next.js + Zustand, improving state consistency in transactional UI flows.
- Delivered UI improvements and prototypes within a 5-week internship in collaboration with the product team.

PEMIRA KM ITERA - Institut Teknologi Sumatera

Sep 2023 - Dec 2023

Information Technology Staff

- Developed the frontend for Pemira KM ITERA 2023 Event digital platform using Tailwind CSS and Javascript.

Educations

Institut Teknologi Sumatera - South Lampung

Aug 2021 - Aug 2025

Bachelor of Informatics Engineering / Computer Science, 3.90/4.00

- Final project: Developed an OBE (Outcome-Based Education) System for the Institution using Next.js.

Study Independent Dicoding

Feb 2024 - Jul 2024

Certificate in React Expert & Back-end Beginner

- Completed certificates in React Expert and Backend Beginner.

- Built Dicodit, a Reddit-like discussion forum application using React.
- Built Otak-Atik, a learning and teaching platform using Next.js, Prisma and Typescript.

Digital Talent Scholarship Kominfo

Aug 2019 - Oct 2019

Certificate in Junior Mobile Programmer

- Gained certification as a Junior Mobile Programmer.
- Created an Android application integrated with a database.

Organisational Experiences

Informatics Engineering First Gathering 2022

Sep 2022

Assignment Staff

- Designed and managed assignment criteria and evaluation for new participants.
- Guided participants through completing tasks and assessed their performance.

GDSC ITERA - Institut Teknologi Sumatera

Sep 2021 - Mar 2022

Member

- Participated in learning and practicing emerging technologies with peers and mentors.
- Collaborated on team projects, enhancing technical skills and teamwork.

Projects, Skills and Achievements

- **Projects:** Sapta Internal System, CodeGym, OBE (Outcome-Based Education) System ITERA, Vocasawer, Vocagame Company Profile Revamp, Otak- Atik: Aplikasi Belajar Untuk Semua, Dicodit, PEMIRA KM ITERA 2023 Website, Posyandu Mawar I Way Huwi Management Website
- **Hard Skills :** Next.js, React JS, Typescript, Prisma ORM, Zustand, Node.js, Express.js, Nest JS, Javascript, PostgreSQL, Golang, MongoDB, HTML, Tailwind CSS, PHP, C++, Java, Python, Project Management
- **Soft Skills:** Problem Solving, Teamwork, Adaptive, Creative, Leadership
- **Achievements:** Third Best Graduate – August 2025 Judicium Ceremony (2025), Best Student SIB Dicoding Cycle 6 React & Back-End Developer (2024), React Expert (Dicoding) (2024), Advanced React (META) (2024), Digital Talent Scholarship: Junior Mobile Programmer (2019), TOEIC 820/990 Score (2019), MTA: HTML 5 Application Development Fundamentals 86/100 Score (2019)
